# THE STORY OF ROMULUS & REMUS

D C C L X X I

Romulus and Remus were twin brothers, sons of a human mother and the God of War, Mars. After their birth, the King where they lived ordered them killed. Afraid they would grow up and take his throne. They were placed in a basket and put into the Tiber River - left to die.

But their basket washed up on the river bank where they were found by a female wolf. The wolf nursed the hungry babies and cared for them until they were found by a shepherd.

The shepherd and his wife raised the babies as their own. Romulus and Remus grew up and helped overthrow the King who had ordered their death.

They wanted to build their own city along the Tiber River where their basket had washed ashore.

So they went to Rome...
